

October 18, 2004

Attention: FCC

Proceeding: 04-233

I am writing in regards to the FCC's proposal to expand the new broadcast service known as Low Power FM (LPFM).

I listen daily to K-LOVE Christian Radio, especially when I am driving my car. I hear K-LOVE on 107.5 and 88.9. They offer me encouragement and hope in this difficult world we live in. I can't imagine not being able to turn on the radio and hear my favorite station play it's positive and encouraging words.

I am concerned that the new LPFM format will cause me to possibly lose my ability to get the K-LOVE radio station that I love. I am afraid it will be displaced by an LPFM broadcaster who may provide other programming.

K-LOVE is one of the few radio stations that enables Christians to hear non stop music with no advertising. It brightens the day of everyone who listens and help give our community a more positive outlook on life. They offer words of encouragement and prayers. They are so much more than just a radio station. They are family to everyone who listens daily. It is encouraging to know that no matter where I go in the US, I can find a K-LOVE radio station. It makes one feel "at home" no matter where they go.

Please reconsider your plans regarding the Low Power FM. I would simply hate to see this music ministry lose it's ability to send it's "positive and encouraging words" throughout the US.

Sincerely,
